Default Setting for Buy Reports Updated

Based on the setting that B&T buyers most commonly request, we have updated the Buy Report creation default to *Pre-Pub Plus 30 Days*. If your buyer requests Pre-Pub Plus 60 Days, please remember to change this setting accordingly.

The change to the default setting does not alter any reports already created.

Buy Report Speed Improved

At the end of December, we changed the way that Buy Reports access sales figures for comp titles (not a change in the results ... just a behind-the-scenes adjustment). If reports opened and saved slowly for you in November, please test now and let us know what you find. Opening any report with 60+ new titles (and 2–3 comps assigned to each) should now be faster.

Since there are a variety of factors that can affect speed, please let us know if you do not see an improvement.
