

Publisher Alley
New Emailed Report Delivery
November 2, 2017

Earlier this summer, Publisher Alley upgraded our Excel reports to support XLSX formatted spreadsheets, which eliminated the cap of 65K rows. This cap caused issues for many publishers, so was a much needed fix! However, we discovered the larger reports could not be emailed to some customers due to size limitations on attachments. We're moving to a more modern workflow so beginning tomorrow afternoon, instead of your reports being delivered as an Excel spreadsheet, you will receive an email with a link to a cloud-based file storage system. Simply click on the link and your Excel report will appear! Please let us know if you have any questions at all.
